Date	Initials	Description of Services	Task Code	Hours	Amount
06/25/24	JTC	Draft email to David Olver re: advise the Chapter 7 Trustee is going to be opposing the Debtors' motion to convert to Chapter 11 because he believes it will delay distributions to creditors and will result in increased costs which will further reduce the amount available for distribution; advise it should be noted that although the motion to convert is in the name of the Debtor, it is the shareholders who have appointed a new Director and authorized him to file the motion to convert in the name of the Debtor; the shareholders want to be back in control of distribution and have indicated that they want to make distribution via confirmation of a Chapter 11 liquidating plan; the Trustee believes the Chapter 11 plan confirmation process itself will delay the completion of administration of the estate in addition to increasing the costs which would be payable at a higher priority than Mr. Oliver's claim (and thereby likely reducing the amount available to disburse); for these reasons and several other legal reasons, the Chapter 7 Trustee will be requesting that the bankruptcy court deny the motion to convert at this late juncture to a Chapter 11; request advise if have any questions regarding the Chapter 7 Trustee's position	BKA418	0.20	192.00

06/30/24	JTC	Draft email to Simon Fraser of Cozen re: WARN analysis; advise TTE intent to pay the WARN damages; should tell WARN counsel that this is our plan at the mediation; it is just a question of calculating the damages and presenting; not sure it impacts the estate because does it not change the gross calculation of the amount of the employee's damages; not sure how would procedurally eliminate the WARN Complaint; would need to file a specialized motion to allow payment in the a stated damage amount, identify the employees and provide in the absence of objection it would be binding as a release of the WARN claims; such a motion would provide ammo to deny class certification, but would get embroiled in series of contested motions; the better course and cheaper course for the estate would be to calculate the damages and simply settle with Olsen's class in the normal manner and let the QSF make the payments to the class members; advise of availability for internal call tomorrow with Bill Homony (TTE's accountant) before call with Frank Monaco (mediator) and Mary Olsen	BKA427	0.30	288.00
